## WASHINGTON UNION.

New Volume, New Types, and New Arrangements.

TO THE NATIONAL DEMOCRACY OF THE UNITED STATES HE undersigned takes this method of informin the members of the great national democratic party that, has not assumed the sole proprietorship and editorship of the Wassussers once, he looks to them for that continuance, encouragement, are upport which has hitherto been extended to this time-honored or the democracy, and without which his labors would indeed be pre-

support which has hitherto been extended to this time-honored organ of the democracy, and without which his labors would indeed be profities.

Under the new arrangement, the typographical appearance of the Union has been entirely changed and improved. New and beautiful type is now used in its daily, semi-weekly, and weekly issues, and the paper upon which it is printed is of an extra superior quality. It is my intention to enlarge its size, as the demands or the necessities of the future hasy require and it is in fixed purpose to spare neither expense nor effort to make it the great central organ of the democratic party, every way worthy of their confidence and support, and a reliable and faithful medium of communication between the capital and the country. Having for many years exerted my best efforts to bring Mr. Buchanan into the presidential chair, I shall render to him and to bis administration all the support which party its earl personal friendship can inspire. A great crisis in the affairs of the country—a crisis fraught with peril and danger to the rights of the States and the permanency of the Union—demonstrated to the national democracy and the parriotic people of the country that he acknowledged talents, matured wiedom, approved statesmanship, and long experience, were necessary to their peace and satety, and they placed him, with acclaimation, at the head of the government and the nation. He realized at once their hopes and expectations by calling to him assistance a calinet, of men comboning the reasest qualifications of talents, experience, and statesmanship—men endeared to the democratic party by all their antecedents, by the zeal which they had displayed and the services which they had regidered in some of the most honorable offices of the country, is supporting and sustaining the principles, the measures, and the policy of our party. A few weeks has sufficed to fill every partious heart in the land with confidence and hope. Even his political memics seem to respect him. Fanaticism itself appea

either to place a copy of the Daily, Weelty, or Semi-Weelty Union in the hands of every farmer, mechanic, and working-man in the country.

The subscription price of the Buily Union is ten dollars per annum. The Tr. Weelty (published semi-weekly during the recess of Congress) is five dollars per annum, and contains off the reaching matter which appears in the Daily. The Weelty Union is furnished to subscribers at the low rate of one dollar per onnum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely-printed sheet, and contains as much reading matter in the course of a twelvemont as would make needee ordinary octave columes. It will be found to possess the advantages of both a political and a family newspaper. The most important pointeal articles of the daily issue are transferred to the weekly, and during the sitting of Congress a careful asteries of the daily recording of the two homes is prepared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, speeches of distinguished democrate in and out of Congress, interesting correspondence, a full summary of foreign and domestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

That the Weelty Union is appreciated in the most substantial manner by democrats in every section of the Union, no better evidence moot be desired than is furnished by its rapidly-increasing circulation. Within eighteen months towny Mountain see mans have been added to the subscription list, and, with the slightest exercine on the part of our friends, its circulation can be increased to one hundred thousand correspondent the value of the Weelty Union to correct misrepresentations, expose for the value of the Weelty Union to correct misrepresentations, expose of the stronger and the white paper—but from motives which I think wil

from motives which I think will be understood and appropriate from motives which I think will be understood and appropriate from conclusion. I desire to say a few words to subscribers, and to such as may hereafter become subscribers. There is now owing to the Cnion establishment upwards of seventy thousand dollars for back subscriptions. Those enormous arrearages are the result of the credit system. With the new volume upon which the Union has subscriptions that system is abandoned, and hereafter the business of the establishment will be conducted on strictly eash principles. No subscriptions for the Daily, Semi-weekly, or Weekly issue will be received unless accompanied with the advance payments.

MILLIAM A. HARRIS,

Solitor and Prophistor of the Union, Washington, D. C.

# FURNACES.

THE ATTENTION of the community generally, and of house-builders particularly, is invited to the Keystone Heater, lately patented by J. D. Green, of Philadelphia.

All persons interested are solicited to call at our store and satisfy themselves of the superiority of this heater over all others in use. So successfully have the principles of combustion been applied in its construction, that athisough is presents a radiating surface of one hundred and fifty square feet, it requires thirty per cent. less coal than any formace heretofore manufactured.

Every improvement that an experience of thirty years in the furnace business could suggest has been applied in the preduction of the Keystone Heater, and its proprietors feel assured that, for efficiency and economy of use, it is unsurpassed.

8. C. Herring & Co.'s Patent Champion Safes THE subscribers, grateful for past favors, and finding that a discriminating public were bestowing their patronage to that extent that more warerooms were necessary to exhibit all their stock, have enlarged their depot, by opening an extensive ware and salestroom on Broadway, at No. 251, corner of Murray street, opposite the City Hall. This enlargement of warehouse room, with the recent extensive enlargement of their factory, will enable the subscribers to keep on hand at all times a larger stock of fire and burglar-proof safes than any other establishment in the world. Particular attention will be had to constructing safes for private families to match with other furniture, for the security of plate and jewelry.
